**SECOND LANGUAGE POSTGRADUATE WRITERS
IN THEIR ACADEMIC COMMUNITY: LINKS
BETWEEN DISCIPLINARY KNOWLEDGE AND
WRITING SKILLS**

A dissertation submitted by

Lesvia Patricia Salinas Gómez,

Master of Philosophy
2009**

ABSTRACT

Academic standards in higher education require that all students, including L2 students, are able to write fluently, accurately, clearly, and logically. At postgraduate level, students' competence in written communication depends on appropriate knowledge and use of the discipline-specific genre, plus awareness of the convention-specific phrasing in the discipline. In addition, students need to develop critical thinking and conceptual abilities to satisfy the faculty demands. This research aims to articulate the strong interdependence between disciplinary knowledge and writing skills at postgraduate level. Specifically, this study provides a more explicit description of the role of discourse knowledge and writing skills in academic writing in the business sector. It also provides insights into the skills and challenges of L2 postgraduate writers and their inclusion in their academic community through their writing practice.

The two main methods of data collection were: (i) in-depth interviews with students and their course lecturer, and (ii) text analysis of electronic corpora of two written assignments. These methods were chosen (a) to explore students' perceptions of the writing process and composing strategies in their academic writing production, and (2) to identify key rhetorical components recognising the complexity of the interaction among literacy and disciplinary elements in post-graduate writing.

Exploration of the students' and lecturer's perceptions about the students' writing practices as second language writers indicated students' experiences, difficulties, worries, weaknesses, strengths and learning processes. Their perceptions clarified the relationship between disciplinary knowledge about Management and Organisational Behaviour and successful writing skills.

Findings of this study led researcher to propose two new models: one is based on theoretical principles of academic writing in a discipline and the second addresses

specific applications in second language learning and teaching. The first, “*A model for L2 postgraduate writing process: A metadiscourse perspective*” identifies the factors involved in the writing process including the metadiscourse of academic writing (Hyland, 1998, 1999a, 2001a, 2004b; Hyland & Tse, 2004a). The second is “*A model of learning academic writing: the second language writing process at post-graduate level*”. This second model involves the stages of knowledge development for a writer in the discipline to be accepted in the academic community. The latter model illustrates the functions, context, the role and relevance of writing within the discourse practices of an academic community.

CERTIFICATION OF THESIS

I certify that the ideas, experimental work, results, analysis, and conclusions reported in this thesis are entirely my own effort, except where otherwise acknowledged. I also certify that the work is original and has not been previously submitted for any other award, except where otherwise acknowledged.

ACKNOWLEDGEMENTS

I would first like to thank the student-participants, who provided both their time and their academic work to this research. I also thank Dr Retha Wiesner for participating and sharing her teaching views and experiences with me. Special thanks go to Dr Francis Mangubhai for his detailed reviews of early versions of the entire manuscript. He continuously provided me with extensive feedback and suggestions for improvements, which inspired and enhanced the results of this dissertation. I also thank to Dr Ann Dashwood for her very helpful comments and suggestions for improving this document as I came into the final stages. I am sure that both Dr Mangubhai's and Dr Dashwood's valuable support and dedication have strengthened this research experience and intensified the learning process. Particular thanks also go to Mrs Marilyn Dorman for the editing process she made to the final document. Her comments and corrections enhanced the communicative purpose of this research paper.

I also want to acknowledge the USQ friends, fellow students, academic and administrative staff, who have been associated with my research project. All of them brought me constant and significant help, support and encouragement whenever I needed it.

DEDICATION

A research program cannot be done in a vacuum and I am thankful to my family, teachers, colleagues, students and friends who have encouraged me in this new and demanding project. Special thanks are devoted to my parents, my first and dedicated masters. They have inspired and strengthened my values, understanding, knowledge and perspectives towards life, providing me with the perfect bases on which to make decisions as a person, as a professional and as a family member. My father is the witness of my continuous effort; my mother's memory is the inspiration that I will have in my daily journey forever.

Feelings of gratitude and recognition are given to my brothers, my first peers. You have lived this experience with me and as always, your support and encouragement have helped me to reach this goal. Thank you. To my loved nephews: Juan David, Sebastian and Gabriela there are no barriers in life: we can reach whatever we want if we really want it! Sentiments of thankfulness are also offered to my teachers, who inspired me in my academic field and profession. Thanks Ann, Francis, Kit and Tito. My big, missed and loved extended family also deserves special thanks, each of its members has special place in my life, and so I proudly share the success with you. To all of you thank you so much and, once again, this success is also yours.

Finally, my deepest thanks are devoted to God, who once again gave me the opportunity to continue growing up as a person, as student, as a professional, and as a human being. Thanks God.

TABLE OF CONTENTS.....	vii
LIST OF TABLES	x
LIST OF FIGURES	xi
Chapter 1 Introduction.....	1
1.1 Overview	1
1.2 Motivation for this research	1
1.3 Background to the research problem.....	2
1.4 Research questions	3
1.5 Purpose of the study	4
1.6 Justification and importance of the research.....	5
1.7 Methodology	6
1.8 Organisation of the thesis.....	7
1.9 Definition of terms	8
1.10 Delimitations of the study	11
1.11 Conclusions	11
Chapter 2 Literature Review	12
2.1 Introduction	12
2.2 Second language writing.....	14
2.2.1 Second language writing: a cognitive and linguistic skill.....	16
2.2.2 Second language writing in academic literacies	38
2.3 Theory and practice of academic writing.....	42
2.3.1 Writing demands at postgraduate level for L2 students.....	44
2.3.2 Difficulties in writing at postgraduate level for L2 students	47
2.3.3 Students' needs in L2 academic writing	51
2.3.4 Disciplinary knowledge and specific genre in textual meanings.....	57
2.4 Metadiscourse in academic writing.....	59
2.4.1 Contextual factors	60
2.4.2 Linguistic features.....	64
2.4.3 Motivational factors	72
2.4.4 Cognitive factors	73
2.5 A Model of L2 academic writing process	75
2.6 Conclusions	79
Chapter 3 Methodology	81
3.1 Introduction	81
3.2 Research design.....	82

3.2.1 Stages of the research design	83
3.2.2. Qualitative method: in-depth interviews.....	89
3.2.3. Quantitative method: text analysis.....	92
3.4 Qualitative and quantitative inquiries	94
3.4.1 Analysis of interviews.....	94
3.4.2 Analysis of corpora	96
3.5 Reliability and validity	100
3.6 Conclusions	102
Chapter 4 Results	103
4.1 Introduction	103
4.2 Processes and composing strategies in academic writing.....	104
4.2.1 What makes a good assignment?	104
4.2.2 Process or processes.....	109
4.2.3 Composing strategies	111
4.2.4 Difficulties or worries for L2 students.....	114
4.2.5 Composition difficulties or worries in L2 academic writing	117
4.2.6 Students' concerns about their reader in L2 academic writing	120
4.3 Learning through academic writing	122
4.3.1 Strengths of L2 students.....	124
4.3.2 Weaknesses of L2 students	125
4.4 Deployment of linguistic features in academic writing	127
4.4.1 Pronouns.....	129
4.4.2 Logical connectors	139
4.4.3 Modal verbs.....	149
4.5 Conclusions	152
Chapter 5 Discussion	154
5.1 Introduction.....	154
5.2. Processes and composing strategies used in L2 academic writing	155
5.2.1 Analysing assignments.....	155
5.2.2 Process or processes in L2 disciplinary writing.....	161
5.2.3 Composing strategies in L2 disciplinary writing	166
5.3 Enhancing learning.....	185
5.4 Students' use of discourse features in academic writing	188
5.4.1 Presence and identity in academic writing.....	189
5.4.2 Writer's attitude through academic writing	196
5.4.3 Tentativity in academic writing	203
5.5 Proposing a new model of academic writing in a discipline.....	206
5.6 Conclusions	211
Chapter 6 Conclusions and Implications	212
6.1 Introduction.....	212
6.2 Overview of the research	213
6.3 Summary of the research method.....	214
6.4 Summary of the main findings.....	215
6.4.1 L2 students' processes and composing strategies: development of academic writing skills in a disciplinary field	215
6.4.2 Learning while writing assignments	219

6.4.3 Deployment of interpersonal features: metadiscourse in students' disciplinary texts	219
6.4.4 Linguistic, non-linguistic, functional and rhetorical features in academic writing	220
6.5 Limitations of the research.....	221
6.6 Research implications	222
6.6.1 Implications for theory	222
6.6.2 Implications for practice	224
6.6.3 Implications and recommendations for further research.....	226
6.7 Conclusions	228
